FOREWORD

The insurance industry in Nigeria is presented with huge potentials for growth. The focus of the industry is to increase its premium base and contribute more to the nation's GDP while the regulator, National Insurance Commission continues to seek viable means to improve insurance penetration in Nigeria. However, the operating environment still remains challenging with Issues of insecurity, poverty, low financial literacy, decline in the price of crude oil, lack of effective Social security system, infrastructural limitations, and unemployment combined have negatively impacted on the development of our economy.

Although the desired insurance penetration is yet to be reached, Nigeria's population continues to grow rapidly and is estimated to surpass 200 million in 2020. About 40 percent of that population will be younger than 25 years. This presents a huge opportunity to underwriters in Nigeria to explore the untapped potential of a larger retail market and develop an inclusive insurance market. The future of the Nigerian insurance Industry is going to be eventful and vibrant as the industry continues to seek various means to deepen insurance penetration in Nigeria.It is expected that the contribution of insurance to the GDP will increase tremendously when all these opportunities are harnessed in coming years.

A review of the Nigerian insurance industry performance showed a moderate growth in volume of business underwritten in year 2014 with a recorded premium of 293.54 billion compared to 267.84 billion in 2013, representing an increase of 9.60 per cent. Over the last (10) years (2005-2014), Nigerian insurance industry had an average growth rate of 18.66 per cent. Non-Life insurance premium income experienced adecrease of -1.31 per cent in 2014 while Life insurance premium income grew at an annual rate of 35.02 per cent.

The Nigeria Insurance Digest presents the performance of the industry in both Life and Non-Life insurance business in the 2014. Data contained in this publication were gathered from the Annual Report/Accounts of 58 member companies of the Association, comprising 15 specialists' Life insurance companies, 29 specialists' Non-Life insurance companies, 12 composite insurance companies and 2 Reinsurance companies.

The operating performance of all classes of insurance business (Life & Non-Life) with reference to premium written and earned, investment income, claims paid, management expenses, loss ratio, commission ratio, expense ratio, investment ratio, distribution of asset and liability, reinsurance transactions and the industry trend in Life and Non-Life insurance business between 2010 and 2014 is presented.

The data set contained in this publication will supply useful analysis and findings to financial analysts, economists, investors, policymakers etc. for policy formulation, developmental planning and other research related activities.

THE NIGERIAN INSURERS ASSOCIATION (NIA)

The NIA was established in 1971 as an umbrella organization for all insurance companies in Nigeria. It has, since then, offered its members a forum to speak to one another and for all of them to speak with one voice to the Government, its agencies and other parties on matters affecting insurance business.

To a large extent, the Association has contributed to Government policies on the development and supervision of Insurance business, and from time to time submits to the Government, proposals considered to be in the best interest of the national economy and the Insurance industry in particular.

The NIA organizes conferences, seminars and other events for members and also publishes a wide range of books and journals.

The congress of the Chief Executives of member companies is the Association's highest decision making organ. The Governing Council comprises of Chief Executives of member companies elected annually at the General meeting of all the members. The Governing Council is furnished regularly with information on issues relating to the practice of insurance by Technical committees namely; Accident Offices Committee; Accounting Technical Committee; Corporate Affairs Committee; Fire Offices Committee; Human Capital Management Committee; Information Technology Committee; Legal Committee; Life Offices Committee; Marine Offices Committee; Motor Technical Committee, Risk Management and Compliance Committee and Micro Insurance Committee.

The technical Committees of the Association have the following responsibilities:

(i) Advising the Governing Council on technical and professional matters;

(ii) Dealing with matters that may be referred to them by the Governing Council;

(iii) Carrying out other functions as may be contained in the rules and regulations of the Committee.

MISSION STATEMENT

Protecting and advancing the common interest of insurers in Nigeria by creating and sustaining a positive image for the insurance industry and contributing to legislation and decisions made by the Government and other Public Authorities for the benefits of the insurance industry in particular and the national economy in general.

OUR OBJECTIVES

The objectives of the Association as embodied in the Constitution of the Association.
are as follows:

- To protect, promote and advance the common interest of insurers in Nigeria.
- To advise members on any action or proposed action by Government or any other authority in connection with any legislation or policy.
- To advise or consult with the Government regarding any act or thing done or being contemplated by it or its agencies or other statutory bodies with regard to any matter relating to Insurance business.
- To guide and assist members in complying with laws, regulations, orders and Government directives relating generally to the business of Insurance.
- To create better understanding of Insurance by all sections of the community including the furtherance of knowledge and research on Insurance and related matters.
- To collect, collate and disseminate statistical, economic and other information relating to Insurance.
- To maintain constant dialogue with other trade associations in the Insurance industry with a view to fostering good relationships between them and the NIA as well as the insuring public.
- To confer, consult, maintain contact and co-operate with individuals, associations, societies, institutions or bodies within or outside Nigeria having objectives similar to those of the Association.
- To promote personal and friendly corporate relationship among individuals and member companies of the Association.

The above objectives are achieved by:

- Regular meetings of the Technical committees of the Association every month where issues affecting the industry are addressed.
- Maintenance of a well equipped research and statistics department.
- Organizing conferences, seminars and training courses for employees of member companies and interested public.
- Maintaining highly skilled manpower conversant with modern information and communication technology.
- Interacting positively with the media and other interested groups.
- Interacting with supervisory authority and the entire membership of the Association.

- Publication of technical journals, statistical digests newsletters and business environment watch.

Bringing pan-African commitment to you.

At Continental Reinsurance, we focus our business locally to build capacity regionally and promote growth across Africa. That's why we offer more local investments, solutions and development than any other pan-African reinsurer. Our aim is to unlock greater value, growth and partnerships across the continent. And as our pan-African business expands, we'll invest even more in people, products and services locally – *thus completing our virtuous circle of commitment.*

OPERATING
ENVIRONMENT

OPERATING ENVIRONMENT 2014

The Nigeria economy was faced with a major challenge of decline in crude oil prices. The country's economy is hinged on proceed from crude oil and the continuous decline in crude oil prices was a downside to the economy in both the short and medium term. In addition to declining crude prices, the Nigerian economy was faced with other headwinds; as a result of declining crude oil prices; the supply gap in the foreign exchange market increased as the demand for dollars outpaced supplies, putting pressure on the Nigerian Naira. The CBN intervened to achieve its mandate of price stability, but this came at the cost of depleting the reserves.

In 2014, the volume of business underwritten by the insurance industry was N293.54 billion as compared to N267.84 billion posted in 2013; this represents an increase of about 9.59%. The improvement in the quantum of premium recorded in 2014 could be attributable to strict adherence to anti-money laundering guidelines, better corporate governance structures, tighter supervisory oversight and co-operation of government agencies in eradicating fake motor insurance through the use of Nigerian Insurance Industry Database (NIID).

Gross Domestic Product: Gross Domestic Product showed real year on year growth of 6.21% in the opening quarter of 2014, a rate that was 0.56% points lower than that of the preceding quarter, yet 1.76% points greater than that recorded in the corresponding quarter of 2013. At 6.54%, second quarter growth was 0.33% points higher than that of the first and was also over a percentage point greater than the rate of 5.40% recorded in the corresponding quarter of the previous year. The third quarter, relative to the second quarter, saw a slight slowdown in growth, of 0.32% points to 6.23%. Nonetheless, this remained 1.06% points greater than the year on year rate of 5.17% recorded in 2013.

Inflation: In 2014 Headline Inflation opened at 8.0%, and remained below or equal to this figure until June. The slowest price increases were recorded in February, where the headline rate was recorded at 7.7%, and peaked in August of 2014 where prices rose by 8.5%; an 80 basis points range over the year. This range was lower than that recorded in 2013, where the Headline index traded in a 170 basis points range with a maximum of 9.5% headline inflation in February 2013 and a 7.8% minimum in October 2013. Prices rose from 8.0% recorded in May to 8.2% in June and continued at a faster pace in July and August as the Headline index increased by 0.1% point in July to 8.3% and by a further 0.2% points to 8.5% in August. This was the highest value recorded for the year. The pace of price increases began to slow beyond August, as prices slowed by 0.5% points between August and December. This was as a result of slower increases in both the Food prices as a result of the harvest season as a well as a slower increase in items that contribute to the Core Sub-index.

External Reserve: The gross external reserves at end- December 2014 stood at US$34.24 billion compared to US$42.85 billion recorded at end-December 2013, representing a depletion rate of 20.1 per cent.

Non-Oil Sector Growth: The non-oil sector continued to drive growth in the Nigerian economy throughout 2014. The opening quarter of 2014 saw the peak of non-oil growth, at 8.21% year on year. Despite being 0.57% points lower than that of the preceding quarter, it was 0.76% points greater than that of the opening quarter of 2013. The second quarter saw a decline in the growth rate of 1.49% points from the opening quarter of the year, to 6.71%, which was an even greater 2.17% points below that of Q2 of 2013. By the third quarter there was a slight acceleration in real growth, of 0.79% points to 7.51%, yet this was still 0.95% points lower than the 8.46% growth rate of Q3 of 2013, as well as being lower than the 2014 peak of 8.21%. The slower non-oil growth vis-à- vis the corresponding quarters in the Second and Third Quarters of 2014 reflect a slowdown in the growth of the Services sector.

Service Sector Growth: The services sector continued to dominate GDP structure, representing 52.99% of the total with a real value of N8, 181,239.94 million in the opening quarter of 2014.

This increased by N367,93101 million or 4.50% in quarter two to N8,549,170.96 and by a marginal N43,866.09 million or 0.51% in quarter three to a total of N8,593,037.05 million. Its share of the total increased marginally in Q2, by 0.16% points to 53.15%, yet declined in Q3 by 3.99% points to 49.16% of the total. In the First Quarter of 2014, at 7.20%, the growth rate had already declined by 1.52% points from the 8.72% recorded in Q4 of 2013, which then declined by a further 0.65% points in Q2 to 6.54% growth. In Q3 there was a marginal recovery of 1.06% points, to a growth rate of 7.61%.

Trade was the greatest driver of year on year growth, with rates of 6.28% in Q1, declining by 1.13% points to 5.15% in Q2, yet picking back up to 6.81% in the third quarter. The second greatest contributor and driver of growth was telecommunications, which grew from 4.48% in Q1 to 6.15% in Q2, 6.25% in Q3 and dropping to 2.48 in the 4th quarter.

OPERATING PERFORMANCE OF NON - LIFE COMPANIES

We take Integrity a Step Further

What is a man without Integrity? What is a Company that does not keep its promises? At Equity Assurance Plc, we do not only keep our promises, we do it in such a way that you'll have no choice but to tell others. Try us.

DISTRIBUTION OF GROSS PREMIUM BY CLASS OF BUSINESS 2014

There was a change in distribution of business in 2014. Life business accounted for 36.99% of the industry's total gross premium compared to 30.02 in 2013. The motor insurance class decreased from 14.88% in 2013 to 14.62 in 2014. Oil and gas insurance business also decreased from 24.95% in 2013 to 18.01% in 2014.

Total contribution of other classes to the gross premium income of the market increased from 30.16%in 2013 to 30.38% in 2014.

The improvement in Life, fire, General Accident, Marine & Aviation Insurance Business portfolio is good development for the insurance market.
